Hammacher, Schlemmer & Co., Inc.
Hardware, Tools and Factory Supplies
Fourth Ave. and Thirteenth St. (S. E. Cor.)
NEW YORK, *Since 1848*

IF AFTER seventy-five years of constant endeavor we may be permitted a slight boast, it will be that we are proud of our reputation for high grade tools.

We are giving our patrons Disston's Saws, Russell Jennings' Bits, Buck Bros.' Chisels, Hammond's Hammers, Stanley Planes and other reputable brands of goods equally well known for their superiority, and at prices as moderate as are generally charged for brands costing much less.

On our general line we do not pay the transportation charges, but in order to introduce these special Tool Outfits more generally to the public we will prepay the freight, express or parcel post charges (reserving the right to select the manner of transportation, based on the shipping weight of the Outfit), to all points within 100 miles of New York City.

We *want you to know* that a set of these tools means *the best you could buy if you paid five times the price.*

HAMMACHER, SCHLEMMER & CO., INC.

Important Special Notice

IN OFFERING these Tool Outfits to the public on the partial payment plan, we wish to call attention to the fact that only such Outfits as are expressly illustrated and described in this catalog may be purchased on the partial payment plan. In other words, this is a *distinctly separate department* from all of our other business to which the partial payment plan does not apply, nor does it apply to any other Benches, Tools, or Tool Sets not herein illustrated.

We cheerfully invite a most thorough comparison with any and all other Tool Outfits on the market as to quality, appearance and durability.

We warrant Tools purchased from us to be perfect in material and temper, to be free from flaws and to do the work for which they are recommended, and we will replace any that prove defective in either of the above particulars.

Combination Bench and Tool Cabinet

No. 100

THIS Combination Bench Cabinet is unique in construction. The illustration shows fully its many desirable features, among which are its conveniently arranged drawer and closet space, side opening and hinged top. The bench top is made of seasoned maple, is absolutely rigid and supported by strong uprights which rest directly on the floor. When the cabinet is closed, the bench top as well as all tools are inside, thus making it a fine piece of polished furniture. Trimmed throughout with solid brass locks and handles. The cabinet dimensions are as follows: Length, 47 inches; width, 19 inches; height, 35 inches. The outfits contain about 100 different tools, all of the highest grade, as may be noted from the detailed list on opposite page.

OUTFIT No. 100. Polished Oak, has a wooden vise with 1¾-inch screw, and double bench stop, and the bench top is arranged for their adjustment.

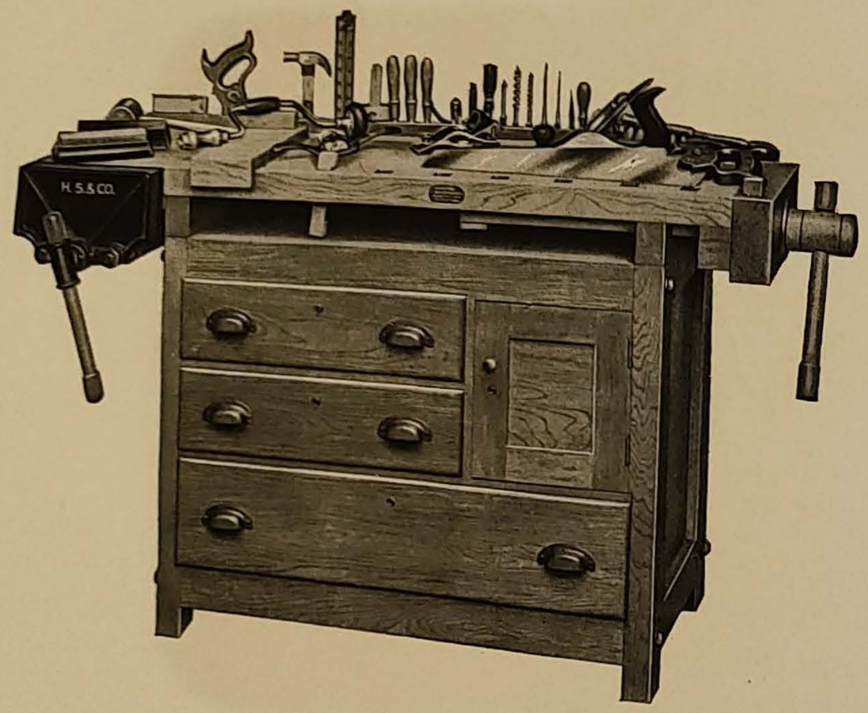
Manual Training Outfit No. 25A



No. 25A

WE wish to impress upon all who are interested in Manual Training Work that the tools in this outfit are all of the highest grade, fully guaranteed. The benches are made of carefully selected and thoroughly seasoned maple, very rigid and strong, and we take pleasure in recommending them.

Our hobby *Since 1848* has been to handle only the best, and our extended experience has proven time and again that only the best tools obtainable should be used for Manual Training. In the hands of beginners tools are usually put to severe and undue strain, and unless quality is there they are bound to give way.

While these outfits are designed primarily for manual training use, they make excellent outfits for home use.
